

Our Vision

The mission of the Children's Hands-On Museum of Northwest Illinois is to offer an accessible, affordable, interactive, and educational environment that will inspire children and families to learn about themselves and our culturally diverse world. The museum will provide a diverse, creative center for hands-on learning through permanent and changing exhibits that will stimulate intellectual curiosity and exploration in children from all types of backgrounds.

Our Location Can Be Yours!

Children's Hands-On Museum is currently a "museum without walls", without a permanent location, but our interactive exhibits are available on-the-go! Contact us for details.

Children's Hands-On Museum of Northwest Illinois

Role-Play • Interact • Learn

The Children's Hands-On Museum (CHOM) of Northwest Illinois provides engaging exhibits so kids can explore everything from farming and manufacturing to music and art. Problem-solving exercises are intertwined with play.

Learning is fun at CHOM!

• 14 Interest Areas (STEAM+) for children, families and school groups with 76+ fun, interactive exhibits

- Affordable and locally accessible
- Stimulates curiosity and creativity
- Supports early learning and improves school readiness

Community support has allowed us to reach this point, but we need your help to meet our future goals, including:

- Secure a more permanent location with regular hours
- Develop programs for those with sensory issues to explore at their own pace
- After-school activities
- Classes on Saturdays and in the summer

Please use the form on the right to send a tax-deductible* donation today!
